

FiberCovers.com

Protect your investment in your sheep.

Many of us who raise sheep do so for the wool. We like clean strong fibers that don't have vegetable matter and other debris mixed in. The solution is to keep your sheep covered. The covers we use and recommend are Matilda brand covers. They come in seven sizes* from 27 ½ inches to 47 ½ inches. They are made of lightweight breathable nylon. They do an excellent job of keeping the fleece clean and allow normal wool growth. They will not interfere with breeding when worn by rams or ewes and can be worn by nursing ewes. For more information or to place an order give us a call or contact us by e-mail.
